

## Announcing HMSA Dental on Well-being Hawaii!

We are pleased to announce that HMSA Dental is contributing articles to the Well-being Hawaii blog. Articles co-written monthly by Dr. John Baleix, M.D. and Dr. Robert Lewando, D.D.S. share an array of important dental topics focused on keeping Hawaii's population informed with regard to dental health. If you have not yet visited the Well-being Hawaii site we encourage you to do so. The site is full of interesting articles discussing everything from medical and dental topics to surviving a tsunami.

HMSA's first dental blog article "Starting Early with Children's Oral Health" was published March, 2017. Please visit the Well-being Hawaii site by clicking on the 'Blog' tab located under the 'Provider' tab or by clicking [here](#).
